PROFILE

I am passionate about creating intuitive and engaging experiences for the web. My design background and development skills allow me to bridge the gap between design and development. I obsess over the details and strive to write clean, scalable code that's as beautiful as the UI on top.

SKILLS

HTML5

CSS3 / Sass

Bootstrap Framework

JavaScript / jQuery

Rapid Prototyping

UI Design

Responsive Web Design

SVG / Vector Graphics

Git / GitHub

Visual / Graphic Design

Adobe Illustrator

Adobe Photoshop

RECENT EXPERIENCE

July 2015–Present - Premera Blue Cross - UX Prototyper, Moutlake Terrace, WA

- Built HTML prototypes of new site features for testing and refinement of user experience.
- Conducted usability studies.
- Designed and tested new UI components.

Apr–Jun 2015 - Bellevue Club - Web Designer & Developer

- Redesigned email marketing templates for responsiveness.
- Content / code maintenance across the club's three websites.

Jan–Feb 2015 - Dawley & Associates - Front-End Developer, Seattle WA

- Responsive redesigns of legacy client websites.
- Designed and coded responsive HTML emails and web forms.

2015 - Freelance - Web / Graphic Designer, Seattle, WA

- Blackbaud, Luminate CRM™ promotional site
- Code Fellows, Teaching Assistant, Foundations of Computer Science & Web Development

PROJECTS

FitGenie - MEAN stack web app - fit-genie.herokuapp.com

- Created mobile-first wireframes and user-flow chart
- Designed UI components - Typography, color palette, images/textures

Photo Booth - HTML5 Camera API web app - nklunder.github.io/photo-booth

- Features added to enhance the user experience: shutter-sound, flash effect, photo saving
- Implemented effects filters that can be applied live to the video stream

EDUCATION

2014 **Code Fellows, Seattle, WA** - Certificate, Front-End UX Design & Development

2008 **University of Hawaii, Honolulu, HI** - B.A., Communication
